## - Education & Training (Chair: Y. Farina)

We had partly finalized all the arrangement for the 6<sup>th</sup> Asian Science Editors' Conference and Workshop, July 13-14<sup>th</sup> 202, Malaysia at Berjaya Times Square Hotel, but due the Covid-19 pandemic the CASE committee decided to cancel the conference.

**The local organizing committee is hoping that Malaysia can still host the conference in 2021. Currently, the Covid-19 pandemic is under control in Malaysia and we are confident that by 2021 we will be allowed to host conferences with certain standard operating procedures by the Ministry of Health Malaysia.**

We have also started **to establish the Malaysian Science Editors' Association**. We have set up a Protem Committee and work was on the way to register the association with our Registrar of Societies. However, due to the restrictions under the Movement Control Order in Malaysia (MCO), this work is currently on hold. We will start re-establishing the work once the MCO is lifted.

### Welcome Message

**President of CASE, R. Subramaniam**

A new year brings forth new opportunities for growth as well as new challenges to address. Since its inception in 2014, the Council of Asian Science Editors (CASE) has been playing an important role in promoting greater awareness of the need for raising standards of national journals in the sciences in Asia through greater stakeholder involvement in the entire publishing ecosystem. To this extent, CASE has been organizing academic conferences, conducting workshops, publishing the journal...

The screenshot shows the CASE homepage with a blue header containing the CASE logo and navigation links: Home, Sitemap, Contact us, About CASE, Publication, Events, Membership, News, and Related link. The main content area features a large banner for the 6<sup>th</sup> Asian Science Editors' Conference and Workshop 2020, held from July 13 to 14, 2020, at the Berjaya Times Square Hotel in Kuala Lumpur, Malaysia. Below the banner, there are sections for 'Forthcoming events' and 'Previous events'. The 'Forthcoming events' section lists the 6<sup>th</sup> Asian Science Editors' Conference and Workshop 2020, scheduled for July 13, 2020, to July 14, 2020. The 'Previous events' section lists three past events: the Joint Convention of the Asia Pacific Association of Medical Editors (July 18, 2018, to July 19, 2018), the 4<sup>th</sup> Asian Science Editors' Conference and Workshop (July 06, 2017, to July 07, 2017), and the 3<sup>rd</sup> Asian Science Editors' Conference and Workshop (July 20, 2016, to July 22, 2016). At the bottom of the page, there are four columns: 'Announcement', 'more >>', 'Publication science editing' (with a link to the official journal of CASE at http://escienceediting.org), 'Newsletter' (with links to the 3<sup>rd</sup>, 2<sup>nd</sup>, and 1<sup>st</sup> newsletters), and 'Membership' (with links to the list of members, benefits of membership, and application form).

## Major points of discussion

1. Update is seemingly required on [Statute and Bylaws; History; Committee members and activities; Events].
2. Find a way to increase the access (visitors) to the CASE Homepage.
3. In need of help from the members of CASE for certain item(s) to improve the quality of the Homepage.

## Council of Asian Science Editors (CASE)

[CASE](#) is a non-governmental, non-partisan, and non-profit organization, CASE aims to improve the quality of science journals published in Asia through consulting and information exchange regarding editing and publishing in order to contribute to the development of science and human well-being.

## History

In recent years, the quality of scientific research in Asia has continuously improved and, accordingly, scholars in Asia are publishing a greater number of research papers. However, because a majority of outstanding papers are being published in non-Asian journals, many of the research papers that are being published in Asia have not drawn the international readership that they deserve.

In order to further the improvement of Asian scientific research publication necessary for international attention, the cooperation of nations across Asia to achieve a synergistic effect is needed to further the cause and reputation of Asian journals as destination for top research.

Toward this end, the [Korean Council of Science Editors \(KCSE\)](#) has prioritized scholarly exchange among editors in Asia for several years. In particular, 18 editors from a few Asian countries gathered at the [Korean Federation of Science and Technology Societies \(KOFST\)](#) on October 1, 2013 and agreed that an organization dedicated to the advancement of scientific research publication across Asia is needed. Thus, the Council of Asian Science Editors (CASE) was conceived.

CASE encourages editors-in-chief, managing editors, manuscript editors, and anyone who is interested in science publication to participate in order to promote and support journals and scientific publication in Asia.
